

# **C-27J SPARTAN** FOR THE JCA PROGRAM

## **MEDIA ADVISORY**

**MONDAY, OCTOBER 9 -- WEDNESDAY, OCTOBER 11, 2006**

Washington Convention Center  
Washington, D.C.

## **C-27J Team to Showcase the C-27J Spartan Military Transport Aircraft during the AUSA (Association of the United States Army) Annual Conference 2006**

**WHAT:** C-27J Team will exhibit and display a model of the C-27J Spartan Transport Aircraft, considered the best value solution for the Joint Cargo Aircraft (JCA) program. The C-27J Team is led by L-3 Communications Integrated Systems (L-3 IS) (NYSE: LLL), Finmeccanica's Alenia North America, Global Military Aircraft Systems (GMAS), and Boeing Integrated Defense Systems (NYSE: BA). The JCA program was established to address operational shortfalls and capability gaps within the existing U.S. Army and Air Force fleet of fixed-wing aircraft.

The C-27J is a true multi-functional, military aircraft designed and built to support deployed soldiers "the last tactical mile" in the most remote and austere environments. It is the most rugged, versatile and survivable aircraft in its class and it fully meets all JCA key performance parameters. The C-27J is also the only aircraft in its class that provides interoperability with Army and Air Force airlift assets, making it the best value solution for the JCA.

**WHERE:** Washington Convention Center  
Washington, D.C.  
Booth Number # 443

**WHEN:** Monday, Oct. 9<sup>th</sup> through Wednesday, Oct. 11<sup>th</sup>, 2006

**For further information, or to schedule an interview with a C-27J Team official, please contact:**
